2015

DODGE DURANGO

//// MOST TECHNOLOGICALLY ADVANCED, FUEL-EFFICIENT AND POWERFUL SUV IN ITS CLASS[1]*

Durango was forged with a big dose of bold attitude. Some may even call us stubborn, but we don't view that as a bad thing. It's the century-old uncompromising Dodge spirit that births vehicles unwilling to compromise. Under no circumstances do we believe that impressive fuel efficiency means sacrificing power. That spacious seven-passenger seating doesn't mean reducing cargo room. Or that a vehicle with utility in its moniker can't coexist with plush, upscale interior details. When push comes to shove, Durango is all-in with best-in-class[1] power, best-in-class[1] towing† and plenty of technology to keep you entertained and connected mile after mile.

*A note about this brochure: all disclaimers and disclosures can be found on the back cover.
†When properly equipped.

Without apologies, this is the 2015 Durango. Only SUV in its class[2] with an available V8 engine // Class-exclusive[1] Uconnect® system with available 8.4-inch touchscreen and available Uconnect Access[18] via mobile that provides music, news and in-vehicle apps // Standard seating for seven // Available class-exclusive[1] Blu-ray™ entertainment system with dual headrest-mounted 9-inch screens // Class-exclusive[1] rotary shifter // Premium soft-touch interiors // Available second-row Captain's Chairs

//// Durango R/T shown in Granite Crystal Metallic with standard 20-inch Hyper Black aluminum wheels.

///// Durango R/T shown in Granite Crystal Metallic.

REBEL AGAINST *THE ORDINARY*

Its capability and roominess qualify Durango as an SUV. But instead of adapting to its segment surroundings, Durango flexes its bold Dodge muscle and stands up to the ordinary. Unlike most SUVs whose style could be described as “boxy” at best, Durango’s armor is forged to highlight its athletic profile. It starts with a fierce split-crosshair grille filled with a modern mesh texture and a bulked-up hood with powerful-looking bulges. Striking projector headlamps with embossed Dodge logo, projector fog lamps and available LED daytime running lamps shine like crown jewels. Light up the night with a full-width class-exclusive[1] LED racetrack taillamp and opt for available dual bright exhaust tips that remind those behind you why you’re in front.

///// Durango R/T shown with Radar Red* leather trim and Black accent stitching.

*Late availability.

ALL SYSTEMS: GO

///// It's class-exclusive[1] and it's standard on every Durango model, a seven-inch reconfigurable digital gauge cluster. You can just refer to it as command central. From here, you get real-time information on performance, available navigation and vehicle status in full color and with rich graphics. The customization is near limitless and programmable by you — after all, this is your Durango.

RECONFIGURABLE DIGITAL GAUGE CLUSTER

////// *The available Driver Assist System combines several safety features that can help you avoid accidents before they happen.**

////// *Voice-activated communication lets you talk on your Bluetooth® enabled phone nearly hands-free.[5]**

////// *View available navigation directions from the center of your cluster.**

////// *ParkSense® Rear Park Assist[3] uses sound waves to detect nearby obstacles.**

*Screens shown are optional depending on model and package.

ONE SIZE: FITS IT ALL

This is the power seat. Not only because from it you control enough power to tow your toys to the lake and haul your gear through the mountains, but because it's designed to put you in control of your surroundings. Without taking your hands off the "smart" steering wheel, you can crank the music, make a phone call, set the cruise control or reconfigure the class-exclusive[1] seven-inch reconfigurable digital gauge cluster. The standard performance-inspired die-cast steering wheel-mounted paddle shifters and the class-exclusive[1] eight-speed automatic transmission with a Rotary Shifter are also easily in reach.

50 DIFFERENT SEATING CONFIGURATIONS[4] Our engineers never lost sight of the fact that Durango is a passenger powerhouse. Standard seven-passenger seating includes a fold-flat front-passenger seat, 60/40 split-fold-flat second-row reclining bench seats with integrated padded center armrest with cup holders and 50/50 split-folding third-row seats. Opt for cloth or heated leather-trimmed fold-flat second-row Captain's Chairs with soft-touch armrests and a floor-mounted mini console with cup holders for six-passenger seating. Whether trips are an adventure for two with a week's worth of camping gear or a full-on family gathering, Durango easily accommodates with 50 different seating configurations.[4]

BEATS™ PREMIUM AUDIO* Regardless of where you and your passengers sit, everyone will appreciate the high-performance sound from the available Beats Premium Audio System. Tuned by Dr. Dre himself, specialized fully integrated speakers allow you to not only hear the music, but to feel it. Reach the peak of your desired tuning through the available Uconnect® system with 8.4-inch touchscreen, allowing music selections from your songs library, radio, CD and any compatible device. Beats Premium Audio includes an additional 50 watts of power per channel, meticulously tuned to play music the way the artist intended it to be heard; 10 premium speakers with a 552-watt amplifier; a subwoofer and enclosure in the rear of Durango; and the commitment of Dr. Dre and the Beats Electronics team.

*Late availability.

///// Durango R/T shown with Nappa perforated leather-trimmed seating in Black with Red accent stitching.

BEAUTIFULLY ACCOMMODATING. Space is a premium and Durango has it in spades. With three standard rows of seating, there's a generous amount of room for everyone. The available second-row Captain's Chairs fold and tumble for easy access to the third row. The convenience of standard automatic Three-Zone Temperature Control and available heated and ventilated seats help keep everyone comfortable. The premium details like soft-touch materials, chrome and woodgrain accents bring a high level of refinement to the cabin.

///// Durango Citadel shown with Nappa perforated leather trim in Light Frost Beige with accent stitching and available Captain's Chairs.

///// CRANK THE MUSIC, MAKE A PHONE CALL, GET DIRECTIONS. Engineered with technology, Uconnect® brings a range of communication and entertainment services directly to your Durango. Intuitive and customizable, available Uconnect systems include a touchscreen display up to 8.4 inches and steering wheel-mounted controls that operate features like a Bluetooth® enabled phone, Voice Command,[5] 3-D navigation, HD Radio, cruise control and more.

Impressive in-vehicle connectivity through available Uconnect Access. Control the following offerings with the simplicity of Voice Command[5] and fingertip control:

9-1-1 CALL:[6] In the event of an emergency, a button on your rearview mirror connects you to local authorities.

ROADSIDE ASSISTANCE CALL:[7] Flat tire or out of gas? The rearview mirror Assist button connects you to Roadside Assistance, which pinpoints your location. Additional fees may apply.

STOLEN VEHICLE ASSISTANCE:[8] If your vehicle is stolen, Uconnect can provide its location to aid police recovery.

THEFT ALARM NOTIFICATION:[9] Choose to receive a text or email alert anytime your vehicle's theft alarm is activated.

PHONE ///// Voice-activated communication lets you talk on your Bluetooth® enabled phone nearly hands-free.[5] Up to 1,000 phone address book entries[10] are synced every time you get into your Durango.

WEB[11] ///// Put the power of high-speed Internet in your Durango with Mopar® Web. Passengers can use multiple devices at the same time, and there's no need for cell cards or software. Available. Subscription required. Sold separately.

VOICE COMMAND[5] ///// Use your voice to select AM/FM radio stations, SiriusXM® Satellite Radio[12] channels, make calls, select navigation directions or record voice memos. English-, French- and Spanish-compatible. Available.

ENTERTAINMENT ///// Get the sound going via CDs/MP3s and available features like remote USB port, audio jack, hard-disc storage, Voice Command,[5] SiriusXM Satellite Radio[12] (your first year of service is included) and Bluetooth Streaming Audio.

NAVIGATION ///// Provides enhanced GPS navigation and destination entry via Voice Command[5] and SiriusXM Traffic[12] for real-time traffic information on the go. Five years of Sirius Traffic[12] service are included. Available.

REAR-SEAT: ENTERTAINMENT

License plate bingo is boring. Watching the latest movies on the latest technology isn't. Entertain rear-seat passengers by popping a disc in the available Blu-ray™/DVD system featuring two nine-inch screens and High-Definition Multimedia Interface (HDMI). When the show's over, hook up the portable gaming console for some friendly competition. Traveling with a movie buff and a gaming fanatic? Durango has you covered. The rear-seat HDMI/USB ports let passengers tap into the entertainment system and use each screen independently of each other.

///// Durango R/T shown with Black Capri leather trim and Red accent stitching.

///// Durango R/T in Granite Crystal Metallic.

BEST-IN-CLASS[1] STANDARD FUEL ECONOMY

25 MPG HWY†

///// BEST-IN-CLASS[1] POWER // TOWING* // DRIVING RANGE

Beneath the beauty of its sleek exterior and premium interior is a double-minded powertrain built to effortlessly devour highway miles without gorging on gas. Add in a near 50/50 weight distribution with four-wheel independent suspension and Durango further separates itself from the competition.

3.6-LITER PENTASTAR® V6 — UP TO 295 HP AND 25 MPG HWY† //// Award-winning 3.6L DOHC with Variable Valve Timing (VVT) Pentastar V6 engine offers the best combination of standard V6 horsepower and torque in its class[1] — 290 horsepower (295 horsepower on Rallye, Blacktop and Citadel) and 260 lb-ft of torque, fuel economy of 25 mpg highway† and a best-in-class[1] V6 highway driving range of over 600 miles.

AVAILABLE 5.7-LITER HEMI® V8 WITH BEST-IN-CLASS[1] V8 POWER //// This legendary powerplant kicks out 360 horsepower and 390 lb-ft of torque. The standard Fuel Saver Technology seamlessly transitions from eight cylinders to four when cruising, contributing to an impressive highway fuel economy of 23 mpg.‡

CLASS-EXCLUSIVE[1] EIGHT-SPEED AUTOMATIC //// Durango's performance is redefined by a standard class-exclusive[1] eight-speed automatic transmission with Eco mode that yields improved efficiency, quicker acceleration and smoother shifting on both the V6 and V8 engines.

BEST-IN-CLASS[1] STANDARD AND AVAILABLE TOWING //// Models with the standard 3.6-liter V6 engine tow an impressive 6,200 pounds.* Outfit Durango with the available 5.7-liter V8 engine and it tows up to an enormous 7,400 pounds.* Pair this towing power with an available active AWD system and hauling heavy water toys out of the lake or taking your most prized possessions cross-country is a breeze.

*When properly equipped. †2014 EPA estimated 18 mpg city/25 mpg highway (RWD), 2015 EPA estimated 17 mpg city/24 mpg highway (AWD). Actual mileage may vary. ‡2014 EPA estimated 14 mpg city/23 mpg highway (RWD), 2014 EPA estimated 14 mpg city/22 mpg highway (AWD). Actual mileage may vary.

ALL-WHEEL DRIVE (AWD) ///// Durango was designed for uncompromising and refined performance even in the worst conditions. Forge on in confidence with available all-wheel drive (AWD). The system helps enhance driver confidence by leveraging the SUV's 50/50 weight distribution. Durango offers two AWD systems — one for the HEMI® V8 and one for the Pentastar® V6 powered models — each one greatly enhances the vehicle's traction and handling by delivering a smooth driving experience on a wide range of road conditions. On V8 models, AWD includes a low range on the transfer case for extreme 4x4 situations.

//// Durango Citadel shown in Granite Crystal Metallic.

///// BEST-IN-CLASS[1] POWER // TOWING* // DRIVING RANGE

*When properly equipped.

1 //// PARKVIEW® REAR BACK-UP CAMERA.[3]
This available system displays an accurate visual reference of what is behind your vehicle when you are in Reverse. Available.

2 //// PARKSENSE® REAR PARK ASSIST.[3]
When in Reverse, these available sensors detect the presence of objects in the back-up pathway and provide an audible and visual warning. Available.

3 //// RAIN BRAKE SUPPORT.
Invaluable in wet conditions. When the windshield wipers have been activated, it pulses the brake pads closer to the spinning rotors — helping keep the rotors and pads dry for greater control and operator security. Standard.

4 //// READY ALERT BRAKING (RAB).
The system anticipates situations when the driver may initiate an emergency brake stop and uses the ESC[13] pump to precharge the brake system in order to decrease the time required for full brake application. Standard.

5 //// BLIND SPOT MONITORING (BSM)[14] AND REAR CROSS-PATH DETECTION.[3]
Radar continually monitors rear vehicle blind zones and will visually and audibly alert the driver when a vehicle is sensed in the zones. When in Reverse, rear sensors warn through a chime if cross-traffic approaches the vehicle. Available.

6 //// FORWARD COLLISION WARNING (FCW)[15] WITH CRASH MITIGATION.
Forward-facing radar sensors detect when Durango may be approaching another object too rapidly and the system alerts the driver with both an audible chime and a visual warning. Available.

7 //// ELECTRONIC STABILITY CONTROL (ESC).[13]
This system is designed to assist drivers in maintaining control of their vehicle during extreme steering maneuvers. ESC senses when a vehicle is starting to spin (oversteer) or plow (understeer), and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels. Standard.

8 //// ADAPTIVE CRUISE CONTROL (ACC) WITH STOP.[16]
Automatically decreases preset cruise-control speed when approaching another vehicle in the same lane, or when another vehicle pulls into the same lane. The system will accelerate to the preset speed when the vehicle in front speeds up or moves into another lane. ACC will maintain a driver-adjustable distance between the vehicle and the one in front of it and can bring Durango to a controlled stop. Available.

We've been making cars for 100 years. We started with two brothers. They tinkered, experimented and sweated the details. They had energy and conviction that were impossible to ignore. They set the standard for us and for those who come after us.

Dodge means doing things for a reason and being proud of the things we do. We want people to actually use their car for what the car is built to do. We think the car has been commoditized and that America's drivers have been abandoned. We want to bring back America's passion for driving. We will do this one Dodge at a time. This is what it means to be "Born Dodge."
